

PUBLIC NOTIFICATION

Public Environmental Information for the Second Quarter of 2026 Regarding the Impact of the Activities of Rompetrol Well Services S.A. – MOINEȘTI SECTION, Located at 146 Atelierelor Street, Moinești, Bacău County

Our company is a specialized service provider performing special operations on oil and gas wells, under NACE Code 0910. The Moinești Section employs a total of 6 staff members.

Rompetrol Well Services S.A. – Moinești Section is continuously committed to improving the services provided to its clients, OMV Petrom and Romgaz S.A., while complying with all applicable environmental protection requirements. The company's main activities are carried out within its clients' well sites and include well stimulation operations, pumping of fluids into the wellbore, and pressure testing. These specialized operations are performed using state-of-the-art vehicles and equipment, ensuring the highest levels of operational safety.

Our activities involve substances that may pose environmental hazards, such as hydrochloric acid. This product is the property of the client and is transported to the well sites by tanker trucks. Transportation is carried out safely and in compliance with the provisions of the European Agreement concerning the International Carriage of Dangerous Goods by Road (ADR). All operational personnel have been trained in accordance with emergency response plans for accidental pollution incidents, and the site is equipped with specialized absorbent materials to ensure prompt intervention for the removal of spills and residues in the event of accidental pollution.

During the second quarter of 2026, there were no accidental pollution incidents or any other events that could have adversely affected the environment.

The Moinești Section holds Environmental Permit No. 182/28.09.2022, issued by the Bacău Environmental Protection Agency (APM Bacău), for which an application has been submitted for the issuance of a new environmental permit.

In accordance with the requirements of Environmental Permit No. 182/28.09.2022, the analysis of stormwater collected in the two holding tanks located within the section's premises is carried out annually by an accredited laboratory.

Additional information regarding environmental matters may be obtained from the Environmental Responsible Person, Răzvan Barbieru, at +40 244 544 321 or +40 244 402 207.
